Our Story

“Be the change that you want to see in the world and then some”.

Meet the directors

Christine Gregg

After taking early retirement from a long career in IT and Media, I found myself looking for a new purpose in life. I was offered a position as a carer and instantly found my new passion. I became a Senior Carer and Induction Trainer to new staff in the company I worked for. I quickly realised I could provide something beyond the care that I was currently giving and decided along with Sonja, to start CDL Care. I am very excited for our future.

Sonja Burridge

When my children all grew up I was looking for something worthwhile to fill my new found time. I was given the opportunity to become a care worker, I quickly realised it was my passion. Looking after elderly in their own homes really is something special.

Here at CDL Care we are ordinary people from different backgrounds. We all have one thing in common: we are highly devoted to care and have a proven track record.

We have had a tremendous amount of interest from people who have seen in reality the way we have a delicate approach whilst providing professional and bespoke enhanced care.

CDL Care staff have been working as carers for sometime. We felt we weren't providing service users the care they really deserved and have come together to devote our time and energy providing only the best service.

We aim to add extra services to enhance to your care packages from sitting services to computing services, from companionship to shopping services. Contact us to create your bespoke package. Feeling lonely or aloof? We would love to help.

We also run social events and trips on a regular basis for over 65s. Whatever your ability or disability we can help you get more life experiences. Our staff have a wealth of experience in care. We have full and comprehensive insurance.

If you are looking for real carers, please call us.

Our Promise

Transparent, honest and outstanding care

Finding the right care

Our Enhanced Care at Home Services allow you or your loved one to stay in your own home with support tailored to meet your needs. Whether you are elderly, convalescing, disabled or just need some extra help with day to day tasks, let us look after you. We all hold current DBS certificates and are hard working, honest and reliable and qualified. We will go the extra mile to satisfy. We want our service-users and any family to be totally happy with the services provided.

Proven Testimony's

We can provide checkable testimonies from service-users we care for. Here are two examples:

“When I heard that Christine and Sonja were setting up on their own, I had no hesitation in asking them to look after me”. - Ellen, from Middleton

5 words- When can I sign up! - Michael, from Altrincham

Trust

A firm belief in the integrity, ability, or character of a person or thing; confidence or reliance

Finding the right care

We may be a newly formed company, but we have already have a provable track record as superb carers. We have much experience between us and are honest and reliable and can provide references. Christine also has business management certification. We are confident we will give the best care with a down to earth person centred care approach.

We weren't satisfied with the care we saw and had to provide as employees and know we can give so much more.

Please get in touch for more details.
